### **Pancreaticojejunostomy Resected Followed by Pancreaticogastrostomy for Pancreaticojejunostomy stricture after pancreaticoduodenectomy**

Xu'an WANG, Yingbin LIU\*

*Department of General Surgery, Xinhua Hospital Affiliated to Shanghai Jiaotong University School of Medicine, China*

**Introduction** : To explore the pancreaticojejunostomy (PJ) resected followed by pancreaticogastrostomy (PG) for pancreaticojejunostomy stricture (PJS) after pancreaticoduodenectomy (PD)

**Methods** : A video to show the details of this method.

**Results** : The patient recovered well.

**Conclusions** : PJ resected followed by PG for PJS after PD is a safe and useful technique.
